BrightPath Tech

Fast, simple, affordable procurement software

Response to RFP-2026-017: Supplier Portal and Contract Lifecycle Management Platform
Issued by Meridian Foods Ltd. (fictional)

Requirement summary. Meridian Foods Ltd. requires a cloud-based Supplier Portal and Contract Lifecycle Management (CLM) platform for about 2,500 internal users and 1,200 external suppliers. Mandatory needs: integration with the SAP S/4HANA ERP and corporate single sign-on, workflow-based contract approvals, auditability, data protection aligned with ISO 27001, go-live within 6 months and 3 years of support.

1. Executive Summary and Understanding of the Requirement

BrightPath Tech offers a ready-to-use multi-tenant SaaS supplier portal that can be configured and launched quickly. We understand Meridian Foods wants a portal for suppliers and contracts at a competitive price. Our offer is the lowest cost and the fastest to deliver.

2. Proposed Solution and Implementation Approach

Architecture: a standard multi-tenant SaaS application with configurable templates for onboarding forms and contract workflows. The platform exposes a standard REST API.

Integrations: SAP data exchange is handled through scheduled CSV import and export files. Real-time SAP integration is not included in the base scope. SSO via SAML is supported.

Scalability details for 2,500 users are not included in this proposal.

We configure the platform from our template library and migrate supplier records supplied by Meridian in spreadsheet form.

3. Timeline, Team Structure and Milestones

Go-live in 14 weeks from contract signature.

- Weeks 1-2: kickoff and configuration workshop
- Weeks 3-9: configuration and CSV integration
- Weeks 10-12: user acceptance testing
- Weeks 13-14: go-live

A small team of 5 people will deliver the project: a project lead, 2 configuration consultants, a tester and a trainer. A formal risk plan is not part of this response.

4. Commercial Proposal

All prices are in USD.

Item	Amount (USD)
Subscription (3 years)	150,000
Configuration and onboarding	95,000
Training	10,000
Support (included in subscription)	0
Total three-year cost	**255,000**

Assumptions: standard templates only; additional integrations, custom workflows and change requests are charged separately.

5. Security, Compliance and Risk Controls

BrightPath follows industry best practices for information security. ISO 27001 certification is in progress. Data is encrypted. Details of audit logging, penetration testing and data residency are available on request.

6. Support Model, Experience and References

Support is available by email and a ticket portal during working hours. Response targets will be agreed after contract signature.

BrightPath was founded in 2022 and has completed one comparable deployment, for a small food distributor. References are available on request.
